Hello.

My history & experience:
Although I have only been with CTD/MTS for 1 year, I have 38 years in the cooling tower industry. My early background was in design & engineering. I moved from Engineering into Sales in 1990. The most interesting part of my job is when I find myself repairing or upgrading a cooling tower that I was involved in with its initial design from the late 70's & 80's.
